P1

P3

Diagram P4 illustrates a path structure within a square frame. The frame has arrows on all four sides: top (up), bottom (down), left (left), and right (right). Two paths are shown:

- Orange Path:** A solid orange line that starts at the bottom-left corner, moves right, then up, then right, then up, then right, and finally up to the top edge.
- Blue Path:** A dashed blue line that starts at the bottom-left corner, moves right, then up, then right, then up, then right, and finally up to the top edge.

The paths are nested, with the orange path being closer to the top and right edges than the blue path. The label "P4" is located in the bottom-left corner of the frame.
